**International Association for Electromog-Research IGEF Ltd.**  
Internationale Gesellschaft für Elektromog-Forschung IGEF Ltd.

# CERTIFICATE

The results of the available investigations for determining the shielding effectiveness against electromagnetic waves revealed that the product

>**RHEINZINK-Roof and facade system made of titanium zinc**<  
(IGEF-ID: ARH150720-00)

attenuates externally impacting electromagnetic waves within a frequency range of 20 kHz to 4 GHz by at least 99.999%. An situational assessment is advisable.  
The requirements of the International Association for Electromog-Research IGEF for awarding the IGEF test seal are satisfied.  
The preconditions for awarding the IGEF test seal must be verified once yearly.

20.07.2018

Wulf-Dietrich Rose  
President of the International Association  
for Electromog-Research IGEF

The company head office is located in Birmingham/GB. Entered in the company register for England and Wales under no. 7124301. IGEF certification body Tenerife/España
